

Update on the Dengue Situation in the Western Pacific Region & the Americas

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. [Western Pacific region data](#) are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People's Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by **WHO's Division of Pacific Technical Support**. Data from the Americas are drawn from the **Pan American Health Organization's** [PLISA Health Information Platform for the Americas](#). Data for Indonesia, Thailand, and Myanmar are drawn from **ASEAN Biodiaspora Virtual Center's** [weekly reports](#). Information is reported based on countries' standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

Western Pacific - Northern Atmosphere

Cambodia

As of epidemiological Week 32 of 2024, 1258 dengue cases were newly reported, leading to a total of 9755 cases. 5 dengue-related deaths were reported that week, for a total of 30 dengue-related deaths to date.

China

In Week 34 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 34) is 404. There were 0 deaths reported in 2024.

Indonesia

In Week 30 of 2024, 1582 dengue cases and 92 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 30) is 166255. There have now been 1008 deaths reported in 2024.

Laos PDR

As of Week 32 of 2024, 924 cases with 0 deaths were reported, for a total of 10376 cases and 0 deaths to date.

Malaysia

As of Week 32 of 2024, 2278 cases with 4 deaths were reported, for a total of 90533 cases and 80 deaths to date.

Myanmar

As of epidemiological Week 27 of 2024, 4968 dengue cases were newly reported, leading to a total of 1309 cases. 23 dengue-related deaths were reported that week, for a total of 30 dengue-related deaths to date.

Philippines

In Week 48 of 2023, 2607 dengue cases and 82 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 48) is 195603. There were 657 deaths reported in 2023.

Singapore

As of Week 32 of 2024, 218 cases with 0 deaths were reported, for a total of 10913 cases and 0 deaths to date.

Thailand

In Week 31 of 2024, 4952 dengue cases and 4 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 31) is 61823. There have now been 48 deaths reported in 2024.

Viet Nam

As of Week 33 of 2024, 3147 cases with 2 deaths were reported, for a total of 57858 cases and 9 deaths to date.

Western Pacific – Southern Atmosphere

Australia

In Week 34 of 2024, 30 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 34) is 1557. There were 0 deaths reported in 2024.

Cook Islands

In Week 17 of 2022, 4 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2022 (as of epidemiological week 17) was 23. There were 0 deaths reported in 2022.

French Polynesia

As of epidemiological Week 8 of 2022, 0 dengue cases were reported. 0 dengue-related deaths were reported that year, for a total of 0 dengue-related deaths that year.

New Caledonia

During epidemiological Week 26 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 26. As of epidemiological Week 26, the cumulative number of dengue cases reported is 8 cases and a total of 0 deaths due to dengue have been reported.

Wallis and Futuna

As of epidemiological Week 45 of 2011, 0 dengue cases were newly reported, leading to a total of 68 cases. 0 dengue-related deaths were reported that week, for a total of 0 dengue-related deaths that year.

The Americas

Antigua and Barbados

During epidemiological Week 28 of 2024, there were 28 dengue cases reported. 0 dengue-related deaths were reported in Week 28. The cumulative number of dengue cases reported to date is 151 cases. As of epidemiological Week 28, a total of 0 deaths due to dengue were reported.

Argentina

In Week 32 of 2024, 7324 dengue cases and 4 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 32) is 564144. There have now been 408 deaths reported in 2024.

Aruba

During epidemiological Week 28 of 2024, there were 24 dengue cases reported. 0 dengue-related deaths were reported in Week 28. The cumulative number of dengue cases reported to date is 81 cases. As of epidemiological Week 28, a total of 0 deaths due to dengue have been reported.

Bahamas

In Week 8 of 2024, 1 dengue case and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 8) is 1. There have now been 0 deaths reported in 2024.

Barbados

In Week 31 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 31) is 1308. There have now been 0 deaths reported in 2024.

Belize

In Week 27 of 2024, 202 dengue cases and 3 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 27) is 4700. There have now been 0 deaths reported in 2024.

Bermuda

As of Week 28 of 2024, 0 cases with 0 deaths were reported, for a total of 0 cases and 0 deaths to date.

Bolivia

As of Week 31 of 2024, 158 cases with 0 deaths were reported, for a total of 41870 cases and 16 deaths to date.

Brazil

As of Week 32 of 2024, 19265 cases with 0 deaths were reported, for a total of 9411049 cases and 5119 deaths to date.

Canada

During epidemiological Week 32 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 32. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 32, no deaths due to dengue were reported.

Cayman Islands

As of epidemiological Week 28 of 2024, 2 dengue cases were newly reported, leading to a total of 5 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Chile

During epidemiological Week 32 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 32. The cumulative number of dengue cases reported to date is 157 cases. As of epidemiological Week 32, no deaths due to dengue have been reported.

Colombia

During epidemiological Week 32 of 2024, there were 5903 dengue cases reported. 0 dengue-related deaths were reported in Week 32. The cumulative number of dengue cases reported to date is 243538 cases. As of epidemiological Week 32, a total of 106 deaths due to dengue have been reported.

Costa Rica

During epidemiological Week 32 of 2024, there were 591 dengue cases reported. 0 dengue-related deaths were reported in Week 32. The cumulative number of dengue cases reported to date is 17859 cases. As of epidemiological Week 32, a total of 0 deaths due to dengue have been reported.

Cuba

As of Week 31 of 2024, 985 cases with 0 deaths were reported, for a total of 985 cases and 0 deaths to date.

Dominican Republic

During epidemiological Week 31 of 2024, there were 87 dengue cases reported. 0 dengue-related deaths were reported in Week 31. The cumulative number of dengue cases reported to date is 8859 cases. As of epidemiological Week 31, a total of 9 deaths due to dengue have been reported.

Ecuador

As of Week 27 of 2024, 1388 cases with 2 deaths were reported, for a total of 42765 cases and 48 deaths to date.

El Salvador

In Week 32 of 2024, 278 dengue cases and 1 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 32) is 5009. There have now been 7 deaths reported in 2024.

Grenada

In Week 32 of 2024, 22 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 32) is 303. There have now been 0 deaths reported in 2024.

Guadeloupe

As of Week 31 of 2024, 60 cases with 0 deaths were reported, for a total of 4235 cases and 0 deaths to date.

Guatemala

During epidemiological Week 32 of 2024, there were 2481 dengue cases reported. 0 dengue-related deaths were reported in Week 32. The cumulative number of dengue cases reported to date is 68937 cases. As of epidemiological Week 32, a total of 82 deaths due to dengue have been reported.

Guyana

As of epidemiological Week 30 of 2024, 10108 dengue cases were newly reported, leading to a total of 27604 cases. There has been a total of 1 dengue-related deaths to date.

Honduras

As of Week 31 of 2024, 8303 cases with 2 deaths were reported, for a total of 99993 cases and 40 deaths to date.

Jamaica

As of Week 31 of 2024, 6 cases with 0 deaths were reported, for a total of 1497 cases and 1 death to date.

Martinique

As of epidemiological Week 31 of 2024, 55 dengue cases were newly reported, leading to a total of 6004 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Mexico

As of Week 32 of 2024, 14902 cases with 23 deaths were reported, for a total of 179349 cases and 101 deaths to date.

Montserrat

As of epidemiological Week 31 of 2024, 0 dengue cases were newly reported, leading to a total of 2 cases to date. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Nicaragua

As of Week 31 of 2024, 1969 cases with 0 deaths were reported, for a total of 55542 cases and 1 deaths to date.

Panama

During epidemiological Week 32 of 2024, there were 260 dengue cases reported. 3 dengue-related deaths were reported in Week 32. The cumulative number of dengue cases reported to date is 16992 cases. As of epidemiological Week 32, a total of 26 deaths due to dengue have been reported.

Paraguay

In Week 32 of 2024, 254 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 32) is 285687. There have now been 116 deaths reported in 2024.

Peru

As of Week 32 of 2024, 802 cases with 0 deaths were reported, for a total of 260159 cases and 232 deaths to date.

Puerto Rico

During epidemiological Week 31 of 2024, there were 128 dengue cases reported. 1 dengue-related deaths were reported in Week 31. The cumulative number of dengue cases reported to date is 2576 cases. As of epidemiological Week 31, a total of 3 deaths due to dengue have been reported.

Saint Barthelemy

As of epidemiological Week 31 of 2024, 2 dengue cases were newly reported, leading to a total of 148 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Saint Kitts and Nevis

In Week 32 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 32) is 209. There have now been 0 deaths reported in 2024.

Saint Lucia

As of Week 32 of 2024, 1 cases with 0 deaths were reported, for a total of 23 cases and 0 deaths to date.

Saint Martin

In Week 31 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 31) is 561. There have now been 0 deaths reported in 2024.

Saint Vincent and the Grenadines

During epidemiological Week 28 of 2024, there were 30 dengue cases reported. 0 dengue-related deaths were reported in Week 28. The cumulative number of dengue cases reported to date is 48 cases. As of epidemiological Week 28, a total of 0 deaths due to dengue have been reported.

Sint Maarten

As of Week 28 of 2024, 25 cases with 0 deaths were reported, for a total of 140 cases and 0 deaths to date.

Suriname

In Week 20 of 2024, 10 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 20) is 95. There have now been 3 deaths reported in 2024.

Trinidad and Tobago

During epidemiological Week 31 of 2024, there were 575 dengue cases reported. 0 dengue-related deaths were reported in Week 31. The cumulative number of dengue cases reported to date is 1025 cases. As of epidemiological Week 31, a total of 4 deaths due to dengue have been reported.

Turks and Caicos Islands

As of Week 28 of 2024, 8 cases with 0 deaths were reported, for a total of 110 cases and 0 deaths to date.

United States

As of epidemiological Week 32 of 2024, 73 dengue cases were newly reported, leading to a total of 1147 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Uruguay

As of epidemiological Week 22 of 2024, 12 dengue cases were newly reported, leading to a total of 701 cases. 0 dengue-related deaths were reported this week, for a total of 2 dengue-related deaths to date.

Venezuela

In Week 21 of 2023, 384 dengue cases and 2 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 21) was 4809. There were 8 deaths reported in 2023.

Virgin Islands UK

During epidemiological Week 28 of 2024, there were 12 dengue cases reported. 0 dengue-related deaths were reported in Week 28. The cumulative number of dengue cases reported to date is 21 cases. As of epidemiological Week 28, a total of 0 deaths due to dengue have been reported.

Virgin Islands US

As of Week 32 of 2024, 35 cases with 0 deaths were reported, for a total of 69 cases and 0 deaths to date.
