

Update on the Dengue Situation in the Western Pacific Region & the Americas

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. [Western Pacific region data](#) are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People’s Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by **WHO’s Division of Pacific Technical Support**. Data from the Americas are drawn from the **Pan American Health Organization’s** [PLISA Health Information Platform for the Americas](#). Data for Indonesia, Thailand, and Myanmar are drawn from **ASEAN Biodiaspora Virtual Center’s** [weekly reports](#). Information is reported based on countries’ standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

Follow us on:

Western Pacific - Northern Atmosphere

Cambodia

As of epidemiological Week 17 of 2024, 289 dengue cases were newly reported, leading to a total of 5351 cases. 3 dengue-related deaths were reported this week, for a total of 19 dengue-related deaths to date.

China

In Week 18 of 2024, 38 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 18) is 108. There have now been 0 deaths reported in 2024.

Indonesia

As of Week 17 of 2024, 12461 cases with 10 deaths were reported, for a total of 88593 cases and 621 deaths to date.

Laos PDR

As of epidemiological Week 18 of 2024, 154 dengue cases were newly reported, leading to a total of 2556 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Malaysia

In Week 18 of 2024, 1995 dengue cases and 4 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 18) is 54882. There have now been 39 deaths reported in 2024.

Myanmar

As of Week 28 of 2023, 4968 cases with 23 deaths were reported, for a total of 6685 cases and 30 deaths to date.

Philippines

As of epidemiological Week 48 of 2023, 2607 dengue cases were newly reported, leading to a total of 195603 cases. 82 dengue-related deaths were reported this week, for a total of 657 dengue-related deaths to date.

Singapore

During epidemiological Week 18 of 2024, there were 250 dengue cases reported. 0 dengue-related deaths were reported in Week 18. The cumulative number of dengue cases reported to date is 6816 cases. As of epidemiological Week 18, a total of 0 deaths due to dengue have been reported.

Thailand

As of epidemiological Week 17 of 2024, 852 dengue cases were newly reported, leading to a total of 28638 cases. 1 dengue-related death were reported this week, for a total of 29 dengue-related deaths to date.

Viet Nam

During epidemiological Week 19 of 2024, there were 620 dengue cases reported. 0 dengue-related deaths were reported in Week 19. The cumulative number of dengue cases reported to date is 18800 cases. As of epidemiological Week 19, a total of 2 deaths due to dengue have been reported.

Western Pacific – Southern Atmosphere

Australia

During epidemiological Week 17 of 2024, there were 277 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 676 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Cook Islands

As of epidemiological Week 17 of 2022, 4 dengue cases were newly reported, leading to a total of 23 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

French Polynesia

During epidemiological Week 8 of 2022, there were 0 dengue cases reported. 11 dengue-related death were reported in Week 8. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 8, a total of 0 deaths due to dengue have been reported.

New Caledonia

During epidemiological Week 9 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 9. The cumulative number of dengue cases reported to date is 6 cases. As of epidemiological Week 9, a total of 0 deaths due to dengue have been reported.

Wallis and Futuna

During epidemiological Week 45 of 2021, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 45. The cumulative number of dengue cases reported to date is 68 cases. As of epidemiological Week 45, a total of 0 deaths due to dengue have been reported.

The Americas

Antigua and Barbados

As of Week 16 of 2024, 0 cases with 0 deaths were reported, for a total of 41 cases and 0 deaths to date.

Argentina

As of Week 18 of 2024, 26241 cases with 13 deaths were reported, for a total of 447108 cases and 304 deaths to date.

Aruba

During epidemiological Week 12 of 2024, there were 2 dengue cases reported. 0 dengue-related deaths were reported in Week 12. The cumulative number of dengue cases reported to date is 16 cases. As of epidemiological Week 12, a total of 0 deaths due to dengue have been reported.

Bahamas

During epidemiological Week 6 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 6. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 6, a total of 0 deaths due to dengue have been reported.

Barbados

As of epidemiological Week 10 of 2024, 940 dengue cases were newly reported, leading to a total of 940 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Belize

In Week 17 of 2024, 26 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 17) is 524. There have now been 0 deaths reported in 2024.

Bermuda

During epidemiological Week 4 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

Bolivia

In Week 15 of 2024, 7784 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 15) is 25364. There have now been 9 deaths reported in 2024.

Brazil

In Week 15 of 2024, 7784 dengue cases and 9 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 15) is 25364. There have now been 9 deaths reported in 2024.

Canada

In Week 18 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 18) is 0. There have now been 0 deaths reported in 2024.

Cayman Islands

As of Week 14 of 2024, 0 cases with 0 deaths were reported, for a total of 3 cases and 0 deaths to date.

Chile

In Week 19 of 2024, 24 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 19) is 138. There have now been 0 deaths reported in 2024.

Colombia

As of Week 18 of 2024, 8374 cases with 9 deaths were reported, for a total of 128881 cases and 48 deaths to date.

Costa Rica

As of Week 18 of 2024, 219 cases with 0 deaths were reported, for a total of 8051 cases and 0 deaths to date.

Cuba

As of epidemiological Week 26 of 2022, 2586 dengue cases were newly reported, leading to a total of 3036 cases. 1 dengue-related death were reported this week, for a total of 1 dengue-related death to date.

Dominican Republic

As of Week 19 of 2024, 175 cases with 0 deaths were reported, for a total of 8106 cases and 23 deaths to date.

Ecuador

During epidemiological Week 18 of 2024, there were 1839 dengue cases reported. 3 dengue-related deaths were reported in Week 18. The cumulative number of dengue cases reported to date is 27063 cases. As of epidemiological Week 18, a total of 31 deaths due to dengue have been reported.

El Salvador

During epidemiological Week 17 of 2024, there were 122 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 1931 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Grenada

As of Week 19 of 2024, 8 cases with 0 deaths were reported, for a total of 146 cases and 0 deaths to date.

Guadeloupe

As of Week 16 of 2024, 65 cases with 0 deaths were reported, for a total of 3340 cases and 0 deaths to date.

Guatemala

In Week 14 of 2024, 531 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 14) is 12570. There have now been 9 deaths reported in 2024.

Guyana

In Week 18 of 2024, 283 dengue cases and 1 death were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 18) is 12929. There have now been 2 deaths reported in 2024.

Honduras

As of Week 16 of 2024, 1663 cases with 0 deaths were reported, for a total of 14840 cases and 10 deaths to date.

Jamaica

As of epidemiological Week 17 of 2024, 50 dengue cases were newly reported, leading to a total of 1223 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Martinique

During epidemiological Week 16 of 2024, there were 165 dengue cases reported. 0 dengue-related deaths were reported in Week 16. The cumulative number of dengue cases reported to date is 5140 cases. As of epidemiological Week 16, a total of 0 deaths due to dengue have been reported.

Mexico

In Week 18 of 2024, 1536 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 18) is 62640. There have now been 20 deaths reported in 2024.

Montserrat

As of Week 17 of 2024, 0 cases with 0 deaths were reported, for a total of 1 cases and 0 deaths to date.

Nicaragua

As of Week 5 of 2024, 7411 cases with 0 deaths were reported, for a total of 17339 cases and 0 deaths to date.

Panama

As of epidemiological Week 18 of 2024, 210 dengue cases were newly reported, leading to a total of 5882 cases. 0 dengue-related deaths were reported this week, for a total of 9 dengue-related deaths to date.

Paraguay

During epidemiological Week 18 of 2024, there were 5660 dengue cases reported. 0 dengue-related deaths were reported in Week 18. The cumulative number of dengue cases reported to date is 261237 cases. As of epidemiological Week 18, a total of 82 deaths due to dengue have been reported.

Peru

In Week 18 of 2024, 15611 dengue cases and 14 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 18) is 209198. There have now been 165 deaths reported in 2024.

Puerto Rico

As of Week 16 of 2024, 26 cases with 0 deaths were reported, for a total of 885 cases and 0 deaths to date.

Saint Barthelemy

In Week 16 of 2024, 1 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 16) is 121. There have now been 0 deaths reported in 2024.

Saint Kitts and Nevis

As of Week 17 of 2024, 0 cases with 0 deaths were reported, for a total of 149 cases and 0 deaths to date.

Saint Lucia

During epidemiological Week 17 of 2024, there were 1 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 5 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Saint Martin

As of Week 16 of 2024, 10 cases with 0 deaths were reported, for a total of 469 cases and 0 deaths to date.

Saint Vincent and the Grenadines

During epidemiological Week 17 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 2 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Sint Maarten

During epidemiological Week 12 of 2024, there were 12 dengue cases reported. 0 dengue-related deaths were reported in Week 12. The cumulative number of dengue cases reported to date is 115 cases. As of epidemiological Week 12, a total of 0 deaths due to dengue have been reported.

Suriname

As of Week 14 of 2024, 3 cases with 0 deaths were reported, for a total of 85 cases and 3 deaths to date.

Trinidad and Tobago

In Week 5 of 2024, 41 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 5) is 87. There have now been 0 deaths reported in 2024.

Turks and Caicos Islands

As of Week 12 of 2024, 47 cases with 0 deaths were reported, for a total of 74 cases and 0 deaths to date.

United States

As of Week 18 of 2024, 38 cases with 0 deaths were reported, for a total of 549 cases and 0 deaths to date.

Uruguay

As of epidemiological Week 19 of 2024, 86 dengue cases were newly reported, leading to a total of 572 cases. 0 dengue-related deaths were reported this week, for a total of 1 dengue-related death to date.

Venezuela

As of epidemiological Week 21 of 2023, 384 dengue cases were newly reported, leading to a total of 4809 cases. 2 dengue-related deaths were reported this week, for a total of 8 dengue-related deaths to date.

Virgin Islands UK

As of epidemiological Week 52 of 2023, 2 dengue cases were newly reported, leading to a total of 7 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Virgin Islands US

In Week 18 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week Week 18) is 0. There have now been 0 deaths reported in 2024.
