

Update on the Dengue Situation in the Western Pacific Region & the Americas

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. [Western Pacific region data](#) are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People's Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by **WHO's Division of Pacific Technical Support**. Data from the Americas are drawn from the **Pan American Health Organization's** [PLISA Health Information Platform for the Americas](#). Data for Indonesia, Thailand, and Myanmar are drawn from **ASEAN Biodiaspora Virtual Center's** [weekly reports](#). Information is reported based on countries' standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

Follow us on:

Western Pacific - Northern Atmosphere

Cambodia

In Week 46 of 2024, 761 dengue case and 1 death were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 46) is 17088. There have now been 43 deaths reported in 2024.

China

During epidemiological Week 46 of 2024, there were 11083 dengue cases reported. 0 dengue-related deaths were reported in Week 46. The cumulative number of dengue cases reported to date is 18687 cases. As of epidemiological Week 46, a total of 0 deaths due to dengue have been reported.

Indonesia

In Week 46 of 2024, 2724 dengue cases and 9 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 46) is 218356. There have now been 1259 deaths reported in 2024.

Laos PDR

In Week 48 of 2024, 183 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 48) is 18925. There have now been 0 deaths reported in 2024.

Malaysia

In Week 46 of 2024, 1583 dengue cases and 1 death were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 46) is 112833. There have now been 104 deaths reported in 2024.

Myanmar

During epidemiological Week 50 of 2024, there were 75 dengue cases reported. 0 dengue-related deaths were reported in Week 50. The cumulative number of dengue cases reported to date is 6368 cases. As of epidemiological Week 50, a total of 15 deaths due to dengue have been reported.

Philippines

During epidemiological Week 48 of 2023, there were 2607 dengue cases reported. 82 dengue-related deaths were reported in Week 48. The cumulative number of dengue cases reported to date is 195603 cases. As of epidemiological Week 48, a total of 657 deaths due to dengue have been reported.

Singapore

As of epidemiological Week 48 of 2024, 92 dengue cases were newly reported, leading to a total of 13260 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Thailand

As of epidemiological Week 51 of 2024, 175 dengue cases were newly reported, leading to a total of 106382 cases. 0 dengue-related deaths were reported this week, for a total of 85 dengue-related deaths to date.

Viet Nam

As of Week 48 of 2024, 5355 cases with 1 death were reported, for a total of 130342 cases and 21 death to date.

Western Pacific – Southern Atmosphere

Australia

As of Week 48 of 2024, 158 cases with 0 deaths were reported, for a total of 2182 cases and 0 deaths to date.

Cook Islands

As of Week 17 of 2022, 4 cases with 0 deaths were reported, for a total of 23 cases and 0 deaths to date.

French Polynesia

During epidemiological Week 8 of 2022, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 8. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 8, a total of 0 deaths due to dengue have been reported.

New Caledonia

As of Week 46 of 2024, 3 cases with 0 deaths were reported, for a total of 11 cases and 0 deaths to date.

Wallis and Futuna

As of Week 45 of 2021, 0 cases with 0 deaths were reported, for a total of 68 cases and 0 deaths to date.

The Americas

Antigua and Barbados

As of Week 36 of 2024, 0 cases with 0 deaths were reported, for a total of 151 cases and 0 deaths to date.

Argentina

In Week 48 of 2024, 7 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 48) is 581402. There have now been 408 deaths reported in 2024.

Aruba

During epidemiological Week 44 of 2024, there were 4 dengue cases reported. 0 dengue-related deaths were reported in Week 44. The cumulative number of dengue cases reported to date is 85 cases. As of epidemiological Week 44, a total of 0 deaths due to dengue have been reported.

Bahamas

In Week 8 of 2024, 1 dengue case and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 8) is 1. There have now been 0 deaths reported in 2024.

Barbados

As of epidemiological Week 44 of 2024, 1087 dengue cases were newly reported, leading to a total of 2395 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Belize

In Week 48 of 2024, 12 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 48) is 1148. There have now been 0 deaths reported in 2024.

Bermuda

As of epidemiological Week 44 of 2024, 0 dengue cases were newly reported, leading to a total of 1 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Bolivia

As of epidemiological Week 49 of 2024, 512 dengue cases were newly reported, leading to a total of 48102 cases. 0 dengue-related deaths were reported this week, for a total of 27 dengue-related deaths to date.

Brazil

As of Week 50 of 2024, 12122 cases with 0 deaths were reported, for a total of 10107270 cases and 5925 deaths to date.

Canada

During epidemiological Week 50 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 50. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 50, a total of 0 deaths due to dengue have been reported.

Cayman Islands

During epidemiological Week 40 of 2024, there were 3 dengue cases reported. 0 dengue-related deaths were reported in Week 40. The cumulative number of dengue cases reported to date is 8 cases. As of epidemiological Week 40, a total of 0 deaths due to dengue have been reported.

Chile

As of epidemiological Week 48 of 2024, 0 dengue cases were newly reported, leading to a total of 157 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Colombia

As of Week 49 of 2024, 3394 cases with 10 deaths were reported, for a total of 311536 cases and 217 deaths to date.

Costa Rica

In Week 49 of 2024, 214 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 49) is 30149. There have now been 7 deaths reported in 2024.

Cuba

As of epidemiological Week 31 of 2024, 985 dengue cases were newly reported, leading to a total of 985 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Dominican Republic

In Week 48 of 2024, 50 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 48) is 10101. There have now been 9 deaths reported in 2024.

Ecuador

In Week 49 of 2024, 822 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 49) is 59120. There have now been 70 deaths reported in 2024.

El Salvador

As of Week 47 of 2024, 444 cases with 0 deaths were reported, for a total of 8031 cases and 9 deaths to date.

Grenada

As of Week 49 of 2024, 9 cases with 0 deaths were reported, for a total of 793 cases and 0 deaths to date.

Guadeloupe

In Week 49 of 2024, 520 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 49) is 10585. There have now been 0 deaths reported in 2024.

Guatemala

As of epidemiological Week 49 of 2024, 484 dengue cases were newly reported, leading to a total of 184501 cases. 0 dengue-related deaths were reported this week, for a total of 188 dengue-related deaths to date.

Guyana

During epidemiological Week 46 of 2024, there were 324 dengue cases reported. 0 dengue-related deaths were reported in Week 46. The cumulative number of dengue cases reported to date is 41179 cases. As of epidemiological Week 46, a total of 7 deaths due to dengue have been reported.

Honduras

As of epidemiological Week 48 of 2024, 765 dengue cases were newly reported, leading to a total of 175673 cases. 0 dengue-related deaths were reported this week, for a total of 153 dengue-related deaths to date.

Jamaica

As of Week 47 of 2024, 18 cases with 0 deaths were reported, for a total of 1859 cases and 2 deaths to date.

Martinique

During epidemiological Week 49 of 2024, there were 105 dengue cases reported. 0 dengue-related deaths were reported in Week 49. The cumulative number of dengue cases reported to date is 7341 cases. As of epidemiological Week 49, a total of 0 deaths due to dengue have been reported.

Mexico

As of epidemiological Week 49 of 2024, 10597 dengue cases were newly reported, leading to a total of 543056 cases. 21 dengue-related deaths were reported this week, for a total of 362 dengue-related deaths to date.

Montserrat

In Week 44 of 2024, 1 dengue case and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 44) is 3. There have now been 0 deaths reported in 2024.

Nicaragua

During epidemiological Week 45 of 2024, there were 23780 dengue cases reported. 0 dengue-related deaths were reported in Week 45. The cumulative number of dengue cases reported to date is 79322 cases. As of epidemiological Week 45, a total of 1 death due to dengue has been reported.

Panama

During epidemiological Week 46 of 2024, there were 952 dengue cases reported. 2 dengue-related deaths were reported in Week 46. The cumulative number of dengue cases reported to date is 34367 cases. As of epidemiological Week 46, a total of 49 deaths due to dengue have been reported.

Paraguay

During epidemiological Week 50 of 2024, there were 802 dengue cases reported. 0 dengue-related deaths were reported in Week 50. The cumulative number of dengue cases reported to date is 294056 cases. As of epidemiological Week 50, a total of 129 deaths due to dengue have been reported.

Peru

As of epidemiological Week 49 of 2024, 1850 dengue cases were newly reported, leading to a total of 278332 cases. 0 dengue-related deaths were reported this week, for a total of 253 dengue-related deaths to date.

Puerto Rico

In Week 47 of 2024, 445 dengue cases and 2 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 47) is 5225. There have now been 7 deaths reported in 2024.

Saint Barthelemy

During epidemiological Week 49 of 2024, there were 6 dengue cases reported. 0 dengue-related deaths were reported in Week 49. The cumulative number of dengue cases reported to date is 163 cases. As of epidemiological Week 49, a total of 0 deaths due to dengue have been reported.

Saint Kitts and Nevis

As of epidemiological Week 49 of 2024, 0 dengue cases were newly reported, leading to a total of 249 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Saint Lucia

As of epidemiological Week 46 of 2024, 14 dengue cases were newly reported, leading to a total of 409 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Saint Martin

During epidemiological Week 49 of 2024, there were 8 dengue cases reported. 0 dengue-related deaths were reported in Week 49. The cumulative number of dengue cases reported to date is 624 cases. As of epidemiological Week 49, a total of 0 deaths due to dengue have been reported.

Saint Vincent and the Grenadines

As of epidemiological Week 44 of 2024, 705 dengue cases were newly reported, leading to a total of 967 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Sint Maarten

As of epidemiological Week 40 of 2024, 4 dengue cases were newly reported, leading to a total of 144 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Suriname

As of epidemiological Week 20 of 2024, 10 dengue cases were newly reported, leading to a total of 95 cases. 0 dengue-related deaths were reported this week, for a total of 3 dengue-related deaths to date.

Trinidad and Tobago

As of Week 48 of 2024, 202 cases with 0 deaths were reported, for a total of 2004 cases and 19 deaths to date.

Turks and Caicos Islands

In Week 44 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 44) is 117. There have now been 0 deaths reported in 2024.

United States

As of epidemiological Week 49 of 2024, 76 dengue cases were newly reported, leading to a total of 2826 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Uruguay

In Week 47 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 47) is 701. There have now been 2 deaths reported in 2024.

Venezuela

As of Week 21 of 2023, 384 cases with 2 deaths were reported, for a total of 4809 cases and 8 deaths to date.

Virgin Islands UK

During epidemiological Week 44 of 2024, there were 57 dengue cases reported. 0 dengue-related deaths were reported in Week 44. The cumulative number of dengue cases reported to date is 87 cases. As of epidemiological Week 44, a total of 0 deaths due to dengue have been reported.

Virgin Islands US

In Week 49 of 2024, 3 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 49) is 180. There have now been 0 deaths reported in 2024.
