

## Update on the Dengue Situation in the Western Pacific Region & the Americas

---

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. Western Pacific region data are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People’s Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by **WHO’s Division of Pacific Technical Support**. Data from the Americas are drawn from the **Pan American Health Organization’s PLISA Health Information Platform for the Americas**. Data for Indonesia, Thailand, and Myanmar are drawn from **ASEAN Biodiaspora Virtual Center’s weekly reports**. Information is reported based on countries’ standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

### Western Pacific - Northern Atmosphere

#### Cambodia

As of epidemiological Week 52 of 2024, 1895 dengue cases were newly reported, leading to a total of 18983 cases. 3 dengue-related deaths were reported this week, for a total of 46 dengue-related deaths to date.

#### China

As of epidemiological Week 52 of 2024, 422 dengue cases were newly reported, leading to a total of 24330 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

#### Indonesia

As of epidemiological Week 46 of 2024, 2724 dengue cases were newly reported, leading to a total of 218356 cases. 9 dengue-related deaths were reported this week, for a total of 1259 dengue-related deaths to date.

#### Laos PDR

As of epidemiological Week 2 of 2025, 51 dengue cases were newly reported, leading to a total of 100 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

#### Malaysia

As of epidemiological Week 52 of 2024, 1341 dengue cases were newly reported, leading to a total of 122423 cases. 1 dengue-related death was reported this week, for a total of 117 dengue-related deaths to date.

**Myanmar**

During epidemiological Week 50 of 2024, there were 75 dengue cases reported. 0 dengue-related deaths were reported in Week 50. The cumulative number of dengue cases reported to date is 6368 cases. As of epidemiological Week 50, a total of 15 deaths due to dengue have been reported.

**Philippines**

During epidemiological Week 48 of 2023, there were 2607 dengue cases reported. 82 dengue-related deaths were reported in Week 48. The cumulative number of dengue cases reported to date is 195603 cases. As of epidemiological Week 48, a total of 657 deaths due to dengue have been reported.

**Singapore**

As of epidemiological Week 52 of 2024, 74 dengue cases were newly reported, leading to a total of 13655 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Thailand**

In Week 52 of 2024, 1204 dengue cases and 3 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological Week 52) is 107586. There have now been 88 deaths reported in 2024.

**Viet Nam**

During epidemiological Week 51 of 2024, there were 2790 dengue cases reported. 1 dengue-related death was reported in Week 51. The cumulative number of dengue cases reported to date is 108433 cases. As of epidemiological Week 51, a total of 28 deaths due to dengue have been reported.

## Western Pacific – Southern Atmosphere

### **Australia**

As of Week 3 of 2025, 102 cases with 0 deaths were reported, for a total of 2298 cases and 0 deaths to date.

### **Cook Islands**

As of Week 17 of 2022, 4 cases with 0 deaths were reported, for a total of 23 cases and 0 deaths to date.

### **French Polynesia**

During epidemiological Week 8 of 2022, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 8. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 8, a total of 0 deaths due to dengue have been reported.

### **New Caledonia**

In 2024, a total of 11 case and 0 deaths were reported.

### **Wallis and Futuna**

As of Week 45 of 2021, 0 cases with 0 deaths were reported, for a total of 68 cases and 0 deaths to date.

## The Americas

### Antigua and Barbados

As of Week 36 of 2024, 0 cases with 0 deaths were reported, for a total of 151 case and 0 deaths to date.

### Argentina

During epidemiological Week 4 of 2025, there were 34 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 127 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

### Aruba

During epidemiological Week 44 of 2024, there were 4 dengue cases reported. 0 dengue-related deaths were reported in Week 44. The cumulative number of dengue cases reported to date is 85 cases. As of epidemiological Week 44, a total of 0 deaths due to dengue have been reported.

### Bahamas

In Week 8 of 2024, 1 dengue case and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 8) is 1. There have now been 0 deaths reported in 2024.

### Barbados

As of epidemiological Week 44 of 2024, 1087 dengue cases were newly reported, leading to a total of 2395 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

### Belize

In Week 48 of 2024, 12 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 48) is 1148. There have now been 0 deaths reported in 2024.

### Bermuda

As of epidemiological Week 44 of 2024, 0 dengue cases were newly reported, leading to a total of 1 case. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

### Bolivia

As of epidemiological Week 4 of 2025, 597 dengue cases were newly reported, leading to a total of 2354 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

### Brazil

As of epidemiological Week 4 of 2025, 23437 dengue cases were newly reported, leading to a total of 194564 cases. 0 dengue-related deaths were reported this week, for a total of 21 dengue-related death to date.

### Canada

As of Week 3 of 2025, 0 cases with 0 deaths were reported, for a total of 0 cases and 0 deaths to date.

**Cayman Islands**

During epidemiological Week 40 of 2024, there were 3 dengue cases reported. 0 dengue-related deaths were reported in Week 40. The cumulative number of dengue cases reported to date is 8 cases. As of epidemiological Week 40, a total of 0 deaths due to dengue have been reported.

**Chile**

As of epidemiological Week 3 of 2025, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Colombia**

During epidemiological Week 3 of 2025, there were 4115 dengue cases reported. 0 dengue-related deaths were reported in Week 3. The cumulative number of dengue cases reported to date is 12740 cases. As of epidemiological Week 3, a total of 0 deaths due to dengue have been reported.

**Costa Rica**

As of epidemiological Week 3 of 2025, 103 dengue cases were newly reported, leading to a total of 435 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Cuba**

As of epidemiological Week 31 of 2024, 985 dengue cases were newly reported, leading to a total of 985 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Dominican Republic**

As of Week 2 of 2025, 43 cases with 0 deaths were reported, for a total of 67 cases and 0 deaths to date.

**Ecuador**

During epidemiological Week 3 of 2025, there were 2244 dengue cases reported. 0 dengue-related deaths were reported in Week 3. The cumulative number of dengue cases reported to date is 2244 cases. As of epidemiological Week 3, a total of 0 deaths due to dengue have been reported.

**El Salvador**

As of Week 3 of 2025, 242 cases with 0 deaths were reported, for a total of 242 cases and 0 deaths to date.

**Grenada**

During epidemiological Week 4 of 2025, there were 2 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 15 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

**Guadeloupe**

During epidemiological Week 3 of 2025, there were 410 dengue cases reported. 0 dengue-related deaths were reported in Week 3. The cumulative number of dengue cases reported to date is 990 cases. As of epidemiological Week 3, a total of 0 deaths due to dengue have been reported.

**Guatemala**

During epidemiological Week 4 of 2025, there were 260 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 2738 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

**Guyana**

As of epidemiological Week 52 of 2024, 26 dengue cases were newly reported, leading to a total of 44028 cases. 0 dengue-related deaths were reported this week, for a total of 8 dengue-related deaths to date.

**Honduras**

During epidemiological Week 3 of 2025, there were 354 dengue cases reported. 0 dengue-related deaths were reported in Week 3. The cumulative number of dengue cases reported to date is 833 cases. As of epidemiological Week 3, a total of 0 deaths due to dengue have been reported.

**Jamaica**

In Week 51 of 2024, 175 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological Week 51) is 2034. There has now been 1 death reported in 2024.

**Martinique**

During epidemiological Week 3 of 2025, there were 85 dengue cases reported. 0 dengue-related deaths were reported in Week 3. The cumulative number of dengue cases reported to date is 115 cases. As of epidemiological Week 3, a total of 0 deaths due to dengue have been reported.

**Mexico**

During epidemiological Week 3 of 2025, there were 1217 dengue cases reported. 0 dengue-related deaths were reported in Week 3. The cumulative number of dengue cases reported to date is 5649 cases. As of epidemiological Week 3, a total of 0 deaths due to dengue have been reported.

**Montserrat**

In Week 44 of 2024, 1 dengue case and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 44) is 3. There have now been 0 deaths reported in 2024.

**Nicaragua**

As of epidemiological Week 4 of 2025, 1432 dengue cases were newly reported, leading to a total of 5702 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Panama**

In Week 1 of 2025, 331 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological Week 1) is 331. There have now been 0 deaths reported in 2025.

**Paraguay**

During epidemiological Week 4 of 2025, there were 921 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 3699 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

**Peru**

During epidemiological Week 3 of 2025, there were 1923 dengue cases reported. 1 dengue-related death was reported in Week 3. The cumulative number of dengue cases reported to date is 5735 cases. As of epidemiological Week 3, a total of 2 deaths due to dengue have been reported.

**Puerto Rico**

As of epidemiological Week 50 of 2024, 483 dengue cases were newly reported, leading to a total of 5708 cases. 0 dengue-related deaths were reported this week, for a total of 7 dengue-related deaths to date.

**Saint Barthelemy**

As of epidemiological Week 3 of 2025, 3 dengue cases were newly reported, leading to a total of 8 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Saint Kitts and Nevis**

In Week 3 of 2025, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological Week 3) is 0. There have now been 0 deaths reported in 2025.

**Saint Lucia**

During epidemiological Week 4 of 2025, there were 2 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 5 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

**Saint Martin**

As of Week 3 of 2025, 35 cases with 0 deaths were reported, for a total of 35 cases and 0 deaths to date.

**Saint Vincent and the Grenadines**

As of epidemiological Week 44 of 2024, 705 dengue cases were newly reported, leading to a total of 967 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Sint Maarten**

As of epidemiological Week 40 of 2024, 4 dengue cases were newly reported, leading to a total of 144 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Suriname**

As of epidemiological Week 20 of 2024, 10 dengue cases were newly reported, leading to a total of 95 cases. 0 dengue-related deaths were reported this week, for a total of 3 dengue-related deaths to date.

**Trinidad and Tobago**

As of Week 48 of 2024, 202 cases with 0 deaths were reported, for a total of 2004 cases and 19 deaths to date.

**Turks and Caicos Islands**

In Week 44 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 44) is 117. There have now been 0 deaths reported in 2024.

**United States**

As of Week 3 of 2025, 7 cases with 0 deaths were reported, for a total of 30 cases and 0 deaths to date.

**Uruguay**

In Week 47 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 47) is 701. There have now been 2 deaths reported in 2024.

**Venezuela**

As of Week 21 of 2023, 384 cases with 2 deaths were reported, for a total of 4809 cases and 8 deaths to date.

**Virgin Islands UK**

During epidemiological Week 44 of 2024, there were 57 dengue cases reported. 0 dengue-related deaths were reported in Week 44. The cumulative number of dengue cases reported to date is 87 cases. As of epidemiological Week 44, a total of 0 deaths due to dengue have been reported.

**Virgin Islands US**

As of Week 3 of 2025, 0 cases with 0 deaths were reported, for a total of 1 case and 0 deaths to date.
