

## Update on the Dengue Situation in the Western Pacific Region & the Americas

---

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. [Western Pacific region data](#) are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People’s Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by **WHO’s Division of Pacific Technical Support**. Data from the Americas are drawn from the **Pan American Health Organization’s** [PLISA Health Information Platform for the Americas](#). Data for Indonesia, Thailand, and Myanmar are drawn from **ASEAN Biodiaspora Virtual Center’s** [weekly reports](#). Information is reported based on countries’ standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

---

### Western Pacific - Northern Atmosphere

#### Cambodia

As of epidemiological Week 52 of 2024, 1895 dengue cases were newly reported, leading to a total of 18983 cases. 3 dengue-related deaths were reported this week, for a total of 46 dengue-related deaths to date.

#### China

As of epidemiological Week 6 of 2025, 49 dengue cases were newly reported, leading to a total of 49 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

#### Indonesia

As of epidemiological Week 46 of 2024, 2724 dengue cases were newly reported, leading to a total of 218356 cases. 9 dengue-related deaths were reported this week, for a total of 1259 dengue-related deaths to date.

#### Laos PDR

As of epidemiological Week 6 of 2025, 41 dengue cases were newly reported, leading to a total of 294 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

#### Malaysia

As of epidemiological Week 52 of 2024, 1341 dengue cases were newly reported, leading to a total of 122423 cases. 1 dengue-related death was reported this week, for a total of 117 dengue-related deaths to date.

**Myanmar**

During epidemiological Week 50 of 2024, there were 75 dengue cases reported. 0 dengue-related deaths were reported in Week 50. The cumulative number of dengue cases reported to date is 6368 cases. As of epidemiological Week 50, a total of 15 deaths due to dengue have been reported.

**Philippines**

During epidemiological Week 48 of 2023, there were 2607 dengue cases reported. 82 dengue-related deaths were reported in Week 48. The cumulative number of dengue cases reported to date is 195603 cases. As of epidemiological Week 48, a total of 657 deaths due to dengue have been reported.

**Singapore**

In Week 6 of 2025, 113 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 6) is 600. There have now been 0 deaths reported in 2025.

**Thailand**

In Week 52 of 2024, 1204 dengue cases and 3 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological Week 52) is 107586. There have now been 88 deaths reported in 2024.

**Viet Nam**

As of Week 4 of 2025, 1920 cases with 0 deaths were reported, for a total of 6945 cases and 0 deaths to date.

## Western Pacific – Southern Atmosphere

### Australia

In Week 4 of 2025, 241 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 4) is 241. There have now been 0 deaths reported in 2025.

### Cook Islands

As of Week 17 of 2022, 4 cases with 0 deaths were reported, for a total of 23 cases and 0 deaths to date.

### French Polynesia

During epidemiological Week 8 of 2022, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 8. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 8, a total of 0 deaths due to dengue have been reported.

### New Caledonia

In 2024, a total of 11 case and 0 deaths were reported.

### Wallis and Futuna

As of Week 45 of 2021, 0 cases with 0 deaths were reported, for a total of 68 cases and 0 deaths to date.

## The Americas

### Antigua and Barbados

As of Week 36 of 2024, 0 cases with 0 deaths were reported, for a total of 151 case and 0 deaths to date.

### Argentina

As of epidemiological Week 7 of 2025, 57 dengue cases were newly reported, leading to a total of 429 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

### Aruba

During epidemiological Week 44 of 2024, there were 4 dengue cases reported. 0 dengue-related deaths were reported in Week 44. The cumulative number of dengue cases reported to date is 85 cases. As of epidemiological Week 44, a total of 0 deaths due to dengue have been reported.

### Bahamas

In Week 8 of 2024, 1 dengue case and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 8) is 1. There have now been 0 deaths reported in 2024.

### Barbados

In Week 5 of 2025, 18 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 5) is 18. There have now been 0 deaths reported in 2025.

### Belize

During epidemiological Week 7 of 2025, there were 13 dengue cases reported. 0 dengue-related deaths were reported in Week 7. The cumulative number of dengue cases reported to date is 44 cases. As of epidemiological Week 7, a total of 0 deaths due to dengue have been reported.

### Bermuda

During epidemiological Week 4 of 2025, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

### Bolivia

As of epidemiological Week 4 of 2025, 597 dengue cases were newly reported, leading to a total of 2354 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

### Brazil

In Week 8 of 2025, 37592 dengue cases and 1 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 8) is 652224. There have now been 160 deaths reported in 2025.

**Canada**

As of epidemiological Week 7 of 2025, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Cayman Islands**

During epidemiological Week 4 of 2025, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

**Chile**

During epidemiological Week 7 of 2025, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 7. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 7, a total of 0 deaths due to dengue have been reported.

**Colombia**

As of epidemiological Week 7 of 2025, 4013 dengue cases were newly reported, leading to a total of 31967 cases. 1 dengue-related death was reported this week, for a total of 4 dengue-related deaths to date.

**Costa Rica**

As of Week 6 of 2025, 128 cases with 0 deaths were reported, for a total of 1126 cases and 0 deaths to date.

**Cuba**

As of epidemiological Week 31 of 2024, 985 dengue cases were newly reported, leading to a total of 985 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Dominican Republic**

As of epidemiological Week 6 of 2025, 47 dengue cases were newly reported, leading to a total of 233 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Ecuador**

In Week 7 of 2025, 1100 dengue cases and 2 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 7) is 6607. There have now been 6 deaths reported in 2025.

**El Salvador**

During epidemiological Week 7 of 2025, there were 88 dengue cases reported. 0 dengue-related deaths were reported in Week 7. The cumulative number of dengue cases reported to date is 585 cases. As of epidemiological Week 7, a total of 0 deaths due to dengue have been reported.

**Grenada**

During epidemiological Week 8 of 2025, there were 7 dengue cases reported. 0 dengue-related deaths were reported in Week 8. The cumulative number of dengue cases reported to date is 31 case. As of epidemiological Week 8, a total of 0 deaths due to dengue have been reported.

**Guadeloupe**

In Week 7 of 2025, 470 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 7) is 3190. There have now been 0 deaths reported in 2025.

**Guatemala**

In Week 6 of 2025, 211 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 6) is 4439. There have now been 0 deaths reported in 2025.

**Guyana**

As of epidemiological Week 7 of 2025, 333 dengue cases were newly reported, leading to a total of 6012 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Honduras**

As of epidemiological Week 7 of 2025, 342 dengue cases were newly reported, leading to a total of 2101 case. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Jamaica**

As of Week 4 of 2025, 35 cases with 0 deaths were reported, for a total of 35 cases and 0 deaths to date.

**Martinique**

As of epidemiological Week 7 of 2025, 50 dengue cases were newly reported, leading to a total of 393 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Mexico**

In Week 7 of 2025, 1243 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 7) is 14587. There have now been 0 deaths reported in 2025.

**Montserrat**

As of epidemiological Week 4 of 2025, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Nicaragua**

As of epidemiological Week 4 of 2025, 1432 dengue cases were newly reported, leading to a total of 5702 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Panama**

During epidemiological Week 4 of 2025, there were 1603 dengue cases reported. 1 dengue-related death was reported in Week 4. The cumulative number of dengue cases reported to date is 1934 cases. As of epidemiological Week 4, a total of 1 deaths due to dengue have been reported.

**Paraguay**

In Week 7 of 2025, 942 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 7) is 6597. There have now been 0 deaths reported in 2025.

**Peru**

As of epidemiological Week 7 of 2025, 1910 dengue cases were newly reported, leading to a total of 13763 cases. 2 dengue-related deaths were reported this week, for a total of 7 dengue-related deaths to date.

**Puerto Rico**

As of epidemiological Week 50 of 2024, 483 dengue cases were newly reported, leading to a total of 5708 cases. 0 dengue-related deaths were reported this week, for a total of 7 dengue-related deaths to date.

**Saint Barthelemy**

As of Week 7 of 2025, 1 case with 0 deaths were reported, for a total of 18 cases and 0 deaths to date.

**Saint Kitts and Nevis**

In Week 7 of 2025, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 7) is 4. There have now been 0 deaths reported in 2025.

**Saint Lucia**

As of Week 7 of 2025, 3 cases with 0 deaths were reported, for a total of 12 cases and 0 deaths to date.

**Saint Martin**

As of Week 7 of 2025, 0 cases with 0 deaths were reported, for a total of 70 cases and 0 deaths to date.

**Saint Vincent and the Grenadines**

In Week 4 of 2025, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 4) is 0. There have now been 0 deaths reported in 2025.

**Sint Maarten**

As of epidemiological Week 40 of 2024, 4 dengue cases were newly reported, leading to a total of 144 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Suriname**

As of epidemiological Week 20 of 2024, 10 dengue cases were newly reported, leading to a total of 95 cases. 0 dengue-related deaths were reported this week, for a total of 3 dengue-related deaths to date.

**Trinidad and Tobago**

As of Week 48 of 2024, 202 cases with 0 deaths were reported, for a total of 2004 cases and 19 deaths to date.

**Turks and Caicos Islands**

In Week 4 of 2025, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 4) is 0. There have now been 0 deaths reported in 2025.

**United States of America**

As of Week 7 of 2025, 8 cases with 0 deaths were reported, for a total of 109 cases and 0 deaths to date.

**Uruguay**

In Week 47 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 47) is 701. There have now been 2 deaths reported in 2024.

**Venezuela**

As of Week 21 of 2023, 384 cases with 2 deaths were reported, for a total of 4809 cases and 8 deaths to date.

**Virgin Islands UK**

In Week 4 of 2025, 9 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 4) is 9. There have now been 0 deaths reported in 2025.

**Virgin Islands US**

As of epidemiological Week 7 of 2025, 0 dengue cases were newly reported, leading to a total of 1 case. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.
